#### THE MONEY MARKET.

There is no change in financial matters since a week ago. The period, when it is predicted that banks will be pressed to supply the money that will be required to move the enormous crops of this year, has not arrived, and there is still sufficient money to carry on the business of the country. Loans are still made at 6 per cent. Discounts are made at 6 and 7 per cent. according to the character of the paper. Sterling exchange is made at 9 between banks and 9 1/2 over the counter; demand \$5. New York exchange is 1-16 between banks and 1/16 to 1/8 to customers. The New York bank statement to-day was again against the banks, a decrease being noted in the reserve fund of \$2,686,600. But the circulation increased \$68,300. Loans increased \$2,714,300; and deposits had increased \$414,800. Specie had decreased \$1,950,000.

The Bank of England during the week lost \$256,000 specie; the reserve was reduced to 34 1/2 per cent. of liabilities from 39-1/16 per cent. last week. The Bank to-day lost on balance \$294,000. The Imperial Bank of Germany had during the week \$1,100,000 marks. The London money market was easy and securities were steady to strong.

#### WEEKLY REVIEW OF THE STOCK MARKET.

The extent of transactions has been quite narrow during the week, and prices have only in a few cases been much changed. Montreal improved 1/2 in the lowest bids and 1/2 in the highest. Ontario was not changed, taking the entire week. Toronto advanced to 191, the latest quotation, an advance of 3/4 during the week. Merchants' advanced by 1/2 from 129 to 131, but no sales. Commercial advanced by 1/2 from 132 to 135, at which it closed. Imperial sold up to 140, which was still a decline of 2 on the week previous. The lowest sales of Federal exceeded the lowest of the week previous, but the highest, 152, was only the figure of the previous week. Dominion had the greatest advance, selling up to 205, a clear improvement of 5 1/2. Standard sold at 115, only the fraction better than the week before.

Loan shares were not changed to any great extent, and transactions were limited. Western Canada sold up to 209, an advance of 2 on last week. And Canada Landed Credit advanced 1/2 in the highest sales over the week previous. Real Estate sold at 100, a fractional advance. And Consumers' Gas sold at 151, scarcely up to the week before.
