

GAS ENGINEER, F. BURNETT DIES

Widely known in gas engineering and in mining circles, **Frederick Burnett** died Saturday at the Wellesley Hospital in his seventieth year.

Formerly proprietor of the Economical Gas Apparatus Construction Company, Mr. **Burnett** was one of

Frederick Burnett.

the outstanding gas engineers of Canada. He was frequently called into consultation as an expert by gas companies of the United States. Born at Bowmanville, he began his career as an engineer at Nelson, B. C., later moving to Brantford,

Ont. Forty years ago he came to Toronto, joining the company of which he became owner and manager. Mr. **Burnett** erected some of the largest gas plants in the Dominion.

Following his retirement as a gas engineer about fifteen years ago, he became active in the mining field. He was a former director of the Dome Mines and in 1938 was elected a director of God's Lake Gold Mines. Latterly, because of ill health, he had been retired. He lived at 67 Chatsworth Drive.

Surviving is his widow, Gertrude Verity **Burnett**, formerly of Brantford.
